price is \$20.00 or less, but not less than \$3. The listing of \$1 strike prices will be limited to options issues overlying no more than five (5) individual stocks (the "\$1 Strike Pilot Program") as specifically designated by the Exchange. The Exchange may list \$1 strike prices on any other option issues if those issues are specifically designated by other securities exchanges that employ a \$1 Strike Pilot Program under their respective rules. To be eligible for inclusion into the \$1 Strike Pilot Program, an underlying stock must close below \$20 in its primary market on the previous trading day. After a stock is added to the \$1 Strike Pilot Program, the Exchange may list \$1 strike prices from \$3 to \$20 that are no more than \$5 from the closing price of the underlying on the preceding day. For example, if the underlying stock closes at \$13, the Exchange may list strike prices from \$8 to \$18. The Exchange may not list series with \$1.00 intervals within \$0.50 of an existing \$2.50 strike price (e.g., \$12.50, \$17.50) in the same series, and may not list \$2.50 intervals (e.g. \$12.50, \$17.50) below \$20 under Commentary .03 of this Rule for any issue included within the \$1 Strike Pilot Program if the addition of \$2.50 intervals would cause the issue to have strike price intervals that are \$.50 apart. Additionally, the Exchange may not list long-term option series ("LEAPS") at \$1 strike price intervals for any option class selected for the \$1 Strike Pilot Program.

A stock shall remain in the \$1 Strike Pilot Program until otherwise designated by the Exchange. The \$1 Strike Pilot Program shall expire on [August 4] June 5, 200[4]5.

.05 - No change.
